

# INSTALLATION INSTRUCTIONS FESTOON CABLE LOOP ORGANIZER

Model Number	Description
CLO-02	SMALL - 6.5" Dia
CLO-01	LARGE - 9.5" Dia

## DESCRIPTION

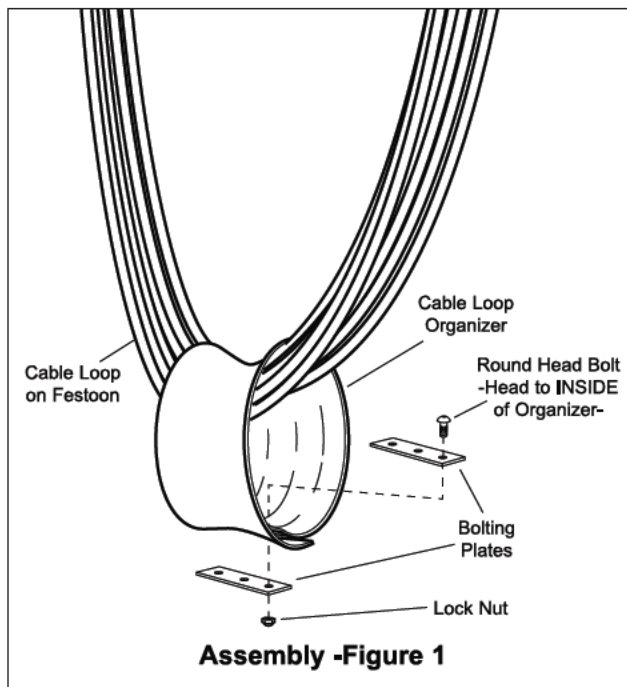

The Cable Loop Organizer controls cables during high speed festoon operation, limiting cable slap and loop swings. It consists of a loop of high strength rubber formed in a concave shape to match the bottom of the cable loops. One organizer is required for each loop in the system.

## INSTALLATION

1. Hang loop organizer over bottom of cable loop.
2. Insert three round head bolts through holes in bolting plate and both end of loop (Fig. 1). Add plate to outside and affix with lock nuts. Torque nuts to 20-25 lb/in. Organizer hangs loosely on cable loop and is not fastened to cables.

### NOTE:

**Heads of round head bolts must be on inside of organizer with lock nuts to outside.**
